**So you have something to sell
to animal feed manufacturers ...**

... how will you ensure they know?

**The animal feed industry is one of the largest process industries in
Britain and, indeed, one of the largest throughout Europe.**

*Feed companies represent an important market for suppliers of a
huge variety of ingredients and additives and for companies offering
processing machinery, process control solutions and bulk handling
equipment. Successful selling to the animal feed industry requires
carefully targeted and sustained attention.*

Unlike the majority of process industries, animal feed manufacturers have their own journal devoted exclusively to their particular needs and concerns.

Feed Compounder is a subscription magazine widely read by practically every executive in the animal feed industry. If you want to let feed manufacturers know what you have to offer them, then *Feed Compounder* is unquestionably the best medium for reaching them.

For over thirty years, *Feed Compounder* has enjoyed an unparalleled reputation which has been achieved by maintaining high standards of quality in both content and presentation. Editorially, the magazine features strong, informed comment and opinion, in-depth technical articles and wholly relevant news columns. State-of-the-art, sheet-fed, full colour presses are used to ensure advertisements are reproduced to the highest standards.

If you wish to sell your products or services to feed manufacturers, you must ensure they are aware who you are. Advertise to them in the journal they choose to buy – the journal exclusively devoted to feed – *Feed Compounder*.

**For further information call Fiona Mounsey on +44 (0)1994 240002 or e-mail
